Skin Aging

A Universal Concern

The skin is the corner stone of social trends at any age and in any culture

Women's Main Concerns

- Change in skin texture
- Wrinkles
- Dull complexion
- Sagging & reduced elasticity
- Pigmentation disorders

Flawless Skin Is Above All Healthy Skin

Skin that expresses positive, natural emotion reflects healthy elegant appearance and doesn't need additional make-up

Healthy Skin

- Radiant & even
- Hydrated
- Smoothed
- Tonic

(1) Skin quality study - WRC - 32 subjects aged 35 to 55 - May 2018.

Skin Aging

The Key Role of Fibroblasts

Fibroblast, a Major Cell in The Dermis

- Collagen production
- Elastin production
- Hyaluronic acid production
- Key role in maintaining youthful appearance of skin

Young Skin-Healthy Fibroblast

Mature Skin-Aging Fibroblast

..... Aging
 Oxidative Stress

- Reduction of quality and quantity of collagen - elastin - hyaluronic acid
- Imbalance between antioxidant protection and free radicals

Appearance of 1st Signs of Aging
